

SEBASTIÁN CASTILLO ZAMUDIO

Pachuca de Soto, Hidalgo, Mexico | 771 396 6461 | sebastiancastillozamudio@hotmail.com

Portfolio: sebastiancz.vercel.app | GitHub: github.com/SebasCastle

PROFILE

Software Engineering student with professional experience in software development and process automation. Currently focused on web development with React, TypeScript, and Node.js, with hands-on experience using NestJS and Express to build and integrate REST APIs. I have contributed to internal solutions using AWS, process automation, and operational tools, as well as projects with Java, Spring Boot, and SQL. Seeking a Junior Software Developer, Frontend, or Full Stack position where I can contribute to application development while continuing to grow technically.

EDUCATION

Universidad Autónoma de Guadalajara

Software Engineering

Graduation: December 2026

CBTIS 222, Pachuca de Soto, Hidalgo

Technical Training in Computer Systems — Dual Education Program

Graduation: July 2023

EXPERIENCE

AVIS

Systems Development & Automation Analyst

2024 – Present

- Developed and maintain automation solutions for operational processes, integrating NestJS, JavaScript, and AWS services.
- Contributed to the automation of BlueZone workflows, including script execution, reservation processing, and communication with backend services.
- Developed a worker and APIs with NestJS to manage jobs, monitor process status, and record automation results.
- Implemented communication and monitoring mechanisms between local processes and backend services, including status validation, retries, and event logging.
- Main automation phase completed in August 2026; currently continue supporting AVIS through IT support and the ongoing improvement of internal solutions.

FALCON TOOLS

Systems & Excel Automation Support

Pachuca de Soto, Hidalgo | Aug 2022 – Aug 2023

- Automated accounting, costing, analysis, and inventory processes using Excel macros, reducing response times by up to 80%.
- Developed a tool to automatically generate quotations and standardize the process.
- Provided support for computer equipment, local network maintenance, and the ASPEL accounting system.

PROJECTS

DevTree | React, TypeScript, Express, REST APIs, Tailwind CSS, React Query, Axios, React Router, shadcn/ui

- Developed the interface of a DevTree-style application for managing and presenting links through a responsive web experience.
- Integrated API consumption and data management using Axios and React Query, along with navigation through React Router.
- Implemented the interface with Tailwind CSS and reusable components using the shadcn/ui ecosystem.

Portfolio Web | React, TypeScript, Vite, Tailwind CSS, React Router, shadcn/ui, Vercel

- Designed and developed a responsive web portfolio to showcase professional experience, projects, and technical skills.
- Implemented route-based navigation, reusable components, interactive projects, and deployment on Vercel.

Spotify API | Java, Spring Boot, REST API, Spotify Web API

- Developed a backend application with Java and Spring Boot to integrate Spotify services through a REST API.
- Worked with controllers, services, and integration configuration to consume and expose platform data.

Client-Server Communication Game | Java, ServerSocket, sockets, serialization, authentication, Vigenère

- Developed a client-server communication project in Java using sockets and ServerSocket.
- Implemented message exchange, ACK confirmations, authentication, object serialization, and Vigenère encryption.

ADDITIONAL TRAINING

Oracle & Alura — Backend Developer | Java, PostgreSQL, Spring Boot | Jan 2024 – Jul 2024

Google Cloud — Virtual machines, VPN, storage, service deployment, and security fundamentals | Jan 2024 – May 2024

Google Cybersecurity & Cisco — Incident response, VLANs, firewalls, Linux, and cybersecurity fundamentals | Nov 2023 – Apr 2024

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Vite, React Router, shadcn/ui

Backend: Node.js, NestJS, Express, REST APIs

Databases: SQL, PostgreSQL, MySQL

Cloud & Tools: AWS, Google Cloud, Git, GitHub, Postman, Vercel, Axios, React Query

Other: Java, Spring Boot, Python, Excel/VBA, Linux, networking, VLANs, and firewalls
Languages: Native Spanish | English B2
